~Story~

Long ago, the world was ravaged by a war between the races. A peace treaty ended the bloodshed, but it couldn't erase the scars marked upon the earth. As Landhealers with the ability to make lush forests out of deserts, a set of twins were raised knowing what their very existences meant to those around them, especially with the title their father holds in the kingdom. Some would say peace thrives, others that it's a delicate balance. Which truth will you find as you become the new Landhealers of the realm, following in your father's footsteps?
